LATEST MODELS RELIABLE & WELL MAINTAINED EQUIPMENT

Force Equipment has a fleet of fully maintained, mobile earth moving equipment for hire.

Whether wet or dry hire, our machines are the latest model equipment with low component hours. All equipment is maintained to a very high standard.

COMPETITIVE AND FLEXIBLE.

We offer competitive rates based on the type of work, duration of the job and the hours to be worked per day/week or month.

THE SUPPLY OF COMPLETE, FULLY MAINTAINED FLEETS

Force Equipment is engaged in several mining projects throughout the Goldfields and Pilbara regions of Western Australia.

The primary function is to supply complete, fully maintained mobile mining fleets engaged in all activities including ore and waste cartage, ROM feed equipment, and rock breaking services. The projects are

Our large hire fleet of earthmoving equipment includes:

- Rigid dump trucks
- Articulated dump trucks
- Track dozers
- Wheel dozers
- Wheel loaders
- Graders
- Excavators
- Rock breakers
- Tool handlers
- Water trucks
- Service trucks.

supported by 24 hour maintenance teams including trades personnel, servicemen and support staff.

Services provided to the Goldfields and Pilbara regions:

- Mechanical maintenance
- Boilermaker services
- Auto electrical repairs
- Machinery supply
- Supply operators
- Field service repairs.

BROAD RANGE OF PROJECT CAPABILITIES. 24/7 RESPONSIVENESS

Force Crane Hire is a division of Force Equipment based in Canningvale, Western Australia.

AN EXPERIENCED AND RESPONSIVE TEAM.

With 24/7 contact availability, the Force Crane Hire team can respond quickly to client needs.

Our team have deep and extensive knowledge across a broad range of projects large and small, with years of experience across all industries.

We pride ourselves in providing services and customer support to the highest standards safely, whilst offering cost effective crane hire and related services.

FULL CRANE HIRE SOLUTIONS BACKED BY A MODERN FLEET.

Capabilities include full crane hire solutions including dogman and rigging services, engineering and transport with a strong focus on safety and customer service.

Our cranes are modern and well maintained, backed by a well-resourced team of operators. Our qualified personnel can assess and coordinate all lifting projects and offer an appropriate range of additional services to manage projects successfully.

Crane lifting capacities range from 15 to 130 tonnes servicing:

- Construction sites
- Infrastructure projects
- Commercial installations
- Residential requirements
- General construction
- Industrial plants
- Engineering projects
- Maintenance projects.

BEYOND COMPLIANCE

SAFETY STRATEGY AND INITIATIVES

- 1) AS – NZS 4801:2001 Certification
- 2) Regular reporting and benchmarking of our safety performance against industry standard
- 3) Safe Work Instructions aligned to national industry training packages including RIIO9 (Resource and Instructions Industry Training Package)
- 4) Continuous improvement programs to meet changes in industry and legislative standards

ENVIRONMENTAL

- Compliance with state and federal legislation
- Ensure environmental management forms part of our business planning
- Promote a culture of responsible environmental management
- Continually improve performance
- Transparent communication with stakeholders.

QUALITY ASSURANCE PLAN

- Compliance with legislation
- Provision for the availability of resources
- Maintain an integrated risk register
- Achieve Key Performance Indicators
- Delivering on quality within the work scope
- Adequate training of staff, including contractor management
- Achieving timeframes.
